Message from the Minister of Telecommunications,  
Information Technologies & Social  
Communication

**ENG. MÁRIO AUGUSTO DA SILVA OLIVEIRA**

The year 2025 surprised us all and, at the same time, confirmed an important fact: the growing interest in, and impact of, ICT on our population. The figures achieved with the 5th edition of ANGOTIC – the way we challenged our teams and partners, the engagement and enthusiasm of the different audiences in the Telecommunications, Information Technologies and Social Communication sector, together with the commitment of our sponsors in organising this major event – are clear evidence of that.

With this sense of pride and responsibility, and with great honour, I hereby officially announce the 6th edition of the ANGOTIC ICT Forum (ANGOTIC 2026), to be held on 11, 12 and 13 June 2026.

The Talatona Convention Centre, in Luanda, will bring together national and international stakeholders from the Telecommunications, Information Technologies and Social Communication sector. The event’s narrative and activities will revolve around the theme chosen for the 2026 edition: “ON THE PATH OF DIGITAL TRANSFORMATION”.

# ANGOTIC

Angola ICT Forum 2026

ON THE PATH OF DIGITAL TRANSFORMATION

[www.angotic.ao](http://www.angotic.ao)

ANGOTIC 2026 is set to be a landmark event at the forefront of technology and innovation in Angola, under the theme:

## **“ON THE PATH OF DIGITAL TRANSFORMATION”.**

Focusing on digitalisation, modernisation, proximity services, sustainable innovation, inclusion and strengthened cooperation, ANGOTIC 2026 aims to showcase the very best of the creative and innovative capacity of ICT companies, both Angolan and international. It also seeks to foster debate on key issues in the sector – from artificial intelligence and fake news to e-governance, local products and services, digital television, data centres and much more.

Through talks, workshops and practical demonstrations, the event intends to inspire, encourage collaboration and drive action towards a more promising and interconnected future.

ANGOTIC 2026 aspires to be a space for groundbreaking ideas and transformative partnerships, helping to shape the course of global innovation in the years ahead.

# WHAT WERE THE RESULTS OF THE PREVIOUS EDITION?

ANGOTIC 2025 provided an opportunity to reflect on how far the sector has grown over the last 50 years – particularly in the digitalisation of businesses and public administration, in the continued advance and spread of disruptive technologies, and in the importance of cooperation between different actors to improve citizen connectivity.

More specifically, the forum aimed to:

- Reflect on ICT developments over 50 years of Angola's independence;
- Showcase the potential and evolution of ICT and its contribution to new business solutions;
- Present new technologies developed by IT companies that enhance management, improve service quality, increase productivity, build customer loyalty and support better decision-making;
- Highlight the skills available in our market and their positive impact on job creation, income and quality of life;
- Illustrate the development and modernisation of Angolan social communication.

ANGOTIC 2025 brought together leaders from multiple fields to discuss how technology can be used as a tool for social and economic transformation.

## 3 DAYS OF EVENT

+ 20,000 PARTICIPANTS

+ 117 NATIONAL AND INTERNATIONAL COMPANIES

+ 180 STARTUPS
